Training and Evaluation Outline Report

Status: Approved 14 May 2015 Effective Date: 29 Sep 2016

Task Number: 71-9-1600

Task Title: Conduct Patient Evacuation (Division Echelon and Above [Operational])

Distribution Restriction: Approved for public release; distribution is unlimited.

Destruction Notice: None

Foreign Disclosure: FD1 - This training product has been reviewed by the training developers in coordination with the Fort Leavenworth, KS foreign disclosure officer. This training product can be used to instruct international military students from all approved countries without restrictions.

Supporting Reference(s):

Step Number	Reference ID	Reference Name	Required	Primary
	ATP 4-02.2	Medical Evacuation	Yes	Yes
	JP 4-02	HEALTH SERVICE SUPPORT	Yes	No

Conditions: The command is conducting operations as a Joint Task Force (JTF) or as a Combined Joint Task Force (CJTF) headquarters. The command's headquarters receives liaison, unit, and individual augmentees. The command receives an operations order from higher headquarters. The commander issues guidance on patient evacuation. The command establishes communications with subordinate and adjacent units and higher headquarters. The mission command system is operational and processing information. This task should not be trained in MOPP 4.

Standards: The staff conducts patient evacuation to develop and implement a comprehensive, effective, efficient, and responsive patient evacuation plan in order to reduce mortality in accordance with the commanders intent, orders from higher headquarters, and standard operating procedures.

Live Fire Required: No

Objective Task Evaluation Criteria Matrix:

Remarks: None
Notes: None.
Safety Risk: Low

Task Statements

Cue: None

DANGER

Leaders have an inherent responsibility to conduct Risk Management to ensure the safety of all Soldiers and promote mission accomplishment.

WARNING

Risk Management is the Army's primary decision-making process to identify hazards, reduce risk, and prevent both accidental and tactical loss. All soldiers have the responsibility to learn and understand the risks associated with this task.

CAUTION

Identifying hazards and controlling risks across the full spectrum of Army functions, operations, and activities is the responsibility of all Soldiers.

Performance Steps and Measures

NOTE: Assess task proficiency using the task evaluation criteria matrix.

NOTE: Asterisks (*) indicate leader steps; plus signs (+) indicate critical steps.

STEP/MEASURE	GO	NO-GO	N/A
The staff plans the medical evacuation process to move wounded, injured, or ill personnel to and/or between medical treatment facilities while providing enroute medical care to:	N/A	N/A	N/A
 a. Reduce mortality by rapid and efficient movement with dedicated air and ground evacuation platforms. 	N/A	N/A	N/A
b. Clear wounded, injured, or ill personnel from the battlefield to enable mission accomplishment.	N/A	N/A	N/A
c. Provide enroute medical care to improve the prognosis and reduce disability of wounded, injured, or ill soldiers.	N/A	N/A	N/A
d. Respond to urgent requirements by ensuring seamless provision of medical care.	N/A	N/A	N/A
e. Provide connectivity to the military health system.	N/A	N/A	N/A
f. Facilitate emergency movement of Class VIII, blood, medical personnel, and medical equipment.	N/A	N/A	N/A
2. The staff establishes procedures that comply with the theater evacuation policy by:	N/A	N/A	N/A
a. Evaluating the availability of health care providers to treat patients and make decisions relating to patient disposition.	N/A	N/A	N/A
b. Determining the number and distribution of hospital beds and special medical capabilities required and available.	N/A	N/A	N/A
c. Estimating casualties based on the nature and length of operations and engagements, weather, terrain, and country.	N/A	N/A	N/A
d. Assessing the quantity and type of transportation assets available for patient evacuation from the theater to the continental US.	N/A	N/A	N/A
3. The staff conducts patient evacuation by developing a medical regulating plan to identify patients awaiting evacuation, locate the available beds, and manage transportation means for movement to:	N/A	N/A	N/A
a. Distribute cases across medical treatment facilities.	N/A	N/A	N/A
b. Ensure adequate beds are available for current and anticipated requirements.	N/A	N/A	N/A
c. Route patients requiring specialized treatment to the appropriate medical treatment facility.	N/A	N/A	N/A
d. Schedule patient movement based on:	N/A	N/A	N/A
(1) Medical condition stabilized to withstand evacuation.	N/A	N/A	N/A
(2) Tactical situation.	N/A	N/A	N/A
(3) Availability of evacuation means.	N/A	N/A	N/A
(4) Locations of medical treatment facilities with special capabilities or resources.	N/A	N/A	N/A
(5) Current bed status of medical treatment facilities.	N/A	N/A	N/A
(6) Surgical backlogs.	N/A	N/A	N/A
(7) Number and location of patients by diagnostic category.	N/A	N/A	N/A
(8) Location of airfields, seaports, and other transportation hubs.	N/A	N/A	N/A
(9) Communications capabilities.	N/A	N/A	N/A
4. The staff establishes liaison with the joint patient movement requirements center to:	N/A	N/A	N/A
a. Coordinate inter-theater patient movement issues and obtain patient movement information updates.	N/A	N/A	N/A
b. Provide information regarding patient movement activities, issues, capabilities, and workload.	N/A	N/A	N/A
c. Identify and resolve patient movement issues.	N/A	N/A	N/A

Environment: Environmental protection is not just the law but the right thing to do. It is a continual process and starts with deliberate planning. Always be alert to ways to protect our environment during training and missions. In doing so, you will contribute to the sustainment of our training resources while protecting people and the environment from harmful effects. Refer to the current Environmental Considerations manual and the current GTA Environmental-related Risk Assessment card.

Safety: In a training environment, leaders must perform a risk assessment in accordance with ATP 5-19, Risk Management. Leaders will complete the current Deliberate Risk Assessment Worksheet in accordance with the TRADOC Safety Officer during the planning and completion of each task and sub-task by assessing mission, enemy, terrain and weather, troops and support available-time available and civil considerations, (METT-TC). Note: During MOPP training, leaders must ensure personnel are monitored for potential heat injury. Local policies and procedures must be followed during times of increased heat category in order to avoid heat related injury. Consider the MOPP work/rest cycles and water replacement guidelines IAW FM 3-11.4, Multiservice Tactics, Techniques, and Procedures for Nuclear, Biological, and Chemical (NBC) Protection, FM 3-11.5, Multiservice Tactics, Techniques, and Procedures for Chemical, Biological, Radiological, and Nuclear Decontamination.
